Correlational Research – Research Methods in Psychology

The other common situations in which the value of  
Pearson's r can be misleading is when one or both of the  
variables have a limited range in the sample relative to  
the population. This problem is referred to as restriction of  
range. Assume, for example, that there is a strong

negative correlation between people's age and their enjoyment of hip hop music as shown by the scatterplot in Figure 6.6.
