Find the ink cartridges and toner cartridges that you need today, and experience fast, reliable shipping, and friendly, award-winning customer service. Make InkCartridges.com your one-stop-shop for all your printer ink needs! Ink Cartridge Care Tips You do not need expensive ink cartridges to keep printing. Here are some tips on how you can get the most of your ink cartridges and save on printing. Frequently Asked Questions What kind of ink cartridges are there? There are a few ways ink cartridges can differ. One is by ink volume, standard size ink cartridges contain less ink compared to high yield ink cartridges which contain more ink and can print more pages. Another is by the type of ink contained in the cartridge. Most black Canon and HP ink cartridges contain pigment-based ink and most color ink cartridges contain dye-based ink. Take note, however, that photo black usually contains dye-based ink. Another way that ink cartridges can differ is in the amount of colors in a cartridge. Tricolor cartridges, like the HP 67 tricolor cartridge, contain three colors in one cartridge (cyan, magenta, yellow) and individual color cartridges contain only one, for example the HP 902 cyan. Finally, ink cartridges can also differ based on whether or not it has an integrated printhead. Ink cartridges for printers that have a built-in printhead do not usually come with an integrated printhead but printers that do not have a printhead use ink cartridges with an integrated printhead. How do I know what ink cartridge to buy? All ink cartridges are labeled with cartridge number or name. You simply have to remove the cartridge from your printer and take note of the cartridge name before shopping for replacements. Turn your most important moments into printouts you can be proud of. Turn your most important moments into printouts you can be proud of.
