Eaton 9130 alarm 1915 manual pdf online

Eaton 9130 alarm 191. Eaton 9130 alarm 199. Eaton 9130 alarm 194.

The equipment transferred to bypass utility power. 8.1 Typical Alarms and Conditions To check the UPS Status menu for a list of active alarms:1. Tower models are also available. LED is on.1 beep every second. Examples are "UPS on Battery" and "UPS on Bypass". Alarm or Condition Possible Cause Action On battery LED is on. To check the Event Log for a history of conditions.1. NOTE:Thermal protection switches load to bypass in case of overheating Safety markings UL cUL, VCCI EMC Markings FCC Class A, EN55022 Class A Storage Temperature -20°C (-4°F) to +40°C (104°F) with batteries and -25°C (-13°F) to +55°C (131 °F) without batteries Relative Humidity 5-90% non-condensing The Eaton 9130 Uninterruptible Power Supply System (UPS) packs up to 3.0 KVA into only 2U of rack space, the EATON 9130 Rackmount UPS delivers superior online power quality and scalable battery runtimes for rack servers, voice and data networks, storage systems, and other IT equipment that require the protection of an uninterruptible power supply. The Eaton 9130 Rackmount UPS delivers online power quality and scalable battery runtimes in applications including but not limited to: smaller data centers, IT systems, or telecom closets Network switching & processing equipment PLC controls High-quality power backup system for AS-400 systems Part NumberPower Rating (VA/Watts)Input PlugOutput Receptacles PW9130L700T700 / 6305-15P(6) 5-15R PW9130L1000T-XL1000 / 9005-15P(6) 5-15R PW9130L1500T-XL1500 / 13505-15P(6) 5-15R PW9130L2000T-XL2000 / 18005-20P(4) 5-20R, (1) L5-20R PW9130L3000T-XL3000 / 2700L5-30P(4) 5-20R, (1) L5-30R PW9130G2000T-XL2000 / 1800L6-20P(4) 6-20R, (1) L6-20R PW9130G2000T-XLEU2000 / 1800L6-20P(8) C13, (1) C19 PW9130G3000T-XL3000 / 2700L6-20P(2) 6-20R, (1) L6-20R, (1) L6-30R PW9130G3000T-XLEU3000 / 2700L6-20P(8) C13, (1) C19 PW9130I700T700 / 630C14(6) C13 PW9130I1000T-XL1000 / 900C14(6) C13 PW9130I1500T-XL1500 / 1350C14(6) C13 PW9130I2000T-XL2000 / 1800C14(8) C13, (1) C19 PW9130I3000T-XL3000 / 2700C20(8) C13, (1) C19 © Copyright - NI Critical Technologies Events are silent conditions that are recorded in the Event Log as status information, such as "Clock Set Done". Due to continuous product improvements, program specifications are subject to change without notice. Input Voltage Range 90-138 Vac Nominal Voltage 120V Frequency 50/60 Hz Frequency Range 45-65 Hz Nominal Current 25 A Breaker Ratings 30A Generator Compatibility Yes Output Receptacles (6) NEMA 5-20R (1) NEMA L5-30R On Utility Voltage Regulation ±3% of nominal On Battery Voltage Regulation ±3% of nominal Voltage Wave Shape (On Battery) Sine wave Power Factor 0.9 Frequency Regulation ±3% Hz online Load Crest Factor 3 to 1 Optional Extended Battery Module PW9130N3000R-EBM2U Maximum number of extended battery modules (EBM) 4 Battery Type 72 Vdc; (6) 12V, 9 Ah Half Load Runtime (in mins) 13 Full Load Runtime (in mins) 5 Battery Replacement Hot-swappable internal and external batteries Start On Battery Allows start of UPS without utility input Recharge Time Internal batteries: 3 hours. Battery mode is not available and your equipment is not protected; however, the utility power continues to be passively filtered by the UPS. LED is on.1 beep every 5 seconds. Available remote monitoring and management with optional eNotify Remote Monitoring service Proprietary ABM battery-charging technology and hot-swappable batteries increase battery service life of EATON 9130 UPS (Uninterruptible Power Supply) and system uptime Product Snapshot Technical Specifications GENERAL User InterfaceGraphical LCD with blue backlight and text in English, French, German, Russian and Spanish LEDsFour status-indicating LEDs TopologyTrue online, double-conversion DiagnosticsFull system self-test UPS bypassAutomatic bypass Dimensions>> Contact an NIC representative for more information 95% in high-efficiency mode; >86% in online mode Frequency regulation±3% Hz online Load crest factor3 to 1 BATTERY Battery TypeVRLA 12V/9 Ah (both internal and external) Battery Runtime>3 minutes with internal batteries @100% load (0.7 PF) Battery ReplacementHot-swappable internal and external batteries Start-on-batteryAllows start of UPS without utility input COMMUNICATIONS Serial portRS-232 standard, for interface to power management software USB portHID standard, for communicating with Windows 98 and ME computers Relay outputCommon alarm standard Communications slotOptional communication slots (BD Slot) Optional communication cardsSNMP/Web card for direct control and monitoring in SNMP-based networks, monitoring of UPS status and meters through Web browser interface Relay card for integration to industrial environment and building management systems, remote shutdown for IBM AS/400 systems 1. Batteries disconnected The UPS does not recognize the internal batteries. Examples are "Output Overload" and "Heatsink Overtemperature". See table 23 on page 33 for estimated runtimes. Ergonomically designed bright LCD user interface simplifies operation and monitoring Features & Benefits For EATON 9130 Uninterruptible Power Supply System (UPS) Eaton 9130 UPS Sizes: 500VA, 750VA, 800VA, 1000VA, 1500VA, 2000VA and 3000VA Rack and Tower UPS: High Efficiency mode with >95% efficiency rating reduces energy usage and costs 2U form factor, 4-post rail kit, and internal batteries save rack space Higher wattage with a 0.9 power factor protects more equipment and allows for expanding IT systems Ergonomically-designed and intuitive LCD user interface and intuitive power-management software simplify the monitoring of your commercial UPS system or industrial UPS system. This warning is approximate, and the actual time to shutdown may vary significantly. Press any button on the front panel display to activate the menu options.2. Press the button until UPS STATUS displays.3. Press the Enter button to display the list of active alarms. The following table describes typical alarms and conditions. The UPS is powering the equipment with battery power. Eaton 9130 Specifications Topology Online, double-conversion Configuration Rackmount Catalog Number PW9130L3000R-XL2UN Color Black Rating (VA/Watts) 3000/2700 Diagnostics Full system self-test Efficiency >95% in high-efficiency mode; >86% in online mode UPS Bypass Automatic bypass Dimensions (H x W x D, inches) 3.4 x 17.3 x 22.6 Weight (lbs) 65 Warranty Two-year factory warranty Rail Kit Included Included with all rackmount units Remote Emergency Power off (REPO) Emergency shutdown control through the REPO port Contents (Ships with the following items) 1 ready-to-go UPS Intelligent Power Software Suite CD: Intelligent Power Manager, Intelligent Power Protector, Network Shutdown Module, LanSafe and Personal Solution-Pac) Network Card-MS USB Cable User Guide Quick Start Instructions 4-post Rail Kit Connection NEMA L5-30P Input Cord 6 ft. Proprietary ABM technology significantly extends battery life while an efficiency rating of >95% reduces your energy costs. Battery low The UPS is in Battery mode and the battery is running low. See "Retrieving the Event Log" on page 19. 1 EBM: 9 hours; 2 EBM: 15 hours; 3 EBM: 21 hours; 4 EBM: 27 hours User Interface Graphical LCD with blue backlight and text in English, French, German, Russian and Spanish LEDs Four status-indicating LEDs Communication Ports (1) USB, (1) RS-232 serial, Relay output (common alarm standard) Connectivity Card Network Card-MS Communications Slot Optional communication slots (BD Slot) Optional Communication Cards SNMP/Web card for direct control and monitoring in SNMP-based networks, monitoring of UPS status and meters through Web browser interface Relay card for integration to industrial environment and building management systems, remote shutdown for IBM AS/400 systems Power Management Software Bundled software suite CD RoHS Compliance Yes Heat Dissipation (BTU) Line: 1257, Bat: 1755 Audible Noise 50 dB Operating Temperature 0°C to 40°C(32°F to 104°F) in online mode, with linear derating for altitude. Use the following troubleshooting chart to determine the UPS alarm condition. Prepare your equipment for shutdown. Check for one of the following alarms: overtemperature, overload, or UPS failure. Press any button on the front panel display to activate the menu options.2. Press the button until EVENT LOG displays.3. Press the Enter button to display the list of conditions. You can also retrieve the entire Event Log in ASCII format. On Bypass The UPS is in Bypass mode. Alarms are announced by a beep every second, recorded in the Event Log, displayed on the LCD, and the Alarm indicator illuminates. Depending on the UPS load and number of Extended Battery Modules (EBMs), the "Battery Low" warning may occur before the batteries reach 25 % capacity. The batteries are disconnected. 1 beep every 5 seconds. A utility failure has occurred and the UPS is in Battery mode. Notices are announced by a beep every 5 seconds, recorded in the Event Log, and displayed on the LCD. LED is flashing slowly.1 beep every second. Verify that all batteries are properly connected. If the condition persists, contact your service representative.
