Aug. 7, 2018, 5:30 PM UTC / Source: TODAYBy Sarah Bracy PennChances are, you've got a messy kid, a potty training puppy or maybe a bad tendency of spilling red wine on the carpet. Sound familiar? Yep.We've all been in a pickle where we need a heavy duty carpet cleaning tool. Cleaning carpet is never a pleasant experience, but at least it just got a bit cheaper.Today, you can pick up this powerful Bissell spot cleaning vacuum for 21 percent off. That's right, nab this Bissell 3624 SpotClean Professional Portable Carpet Cleaner for just \$103 and save yourself the headache of cleaning with an old rag or paying big bucks to get your carpet professionally cleaned.It's tough on stains, comes with a flexible hose for those hard-to-reach spots and includes a stair tool, stain tool and an eight ounce bottle of cleanser.If you don't need that much cleaning power, you can also find this Homasy handheld vacuum on sale today. It's 37 percent off and comes with three nozzle attachments for all sorts of household messes! After working as a chemist at a biotechnology company, I enjoy writing about science, travel, and gardening.Make simple, effective carpet cleaner solution and save money!@leahlefler, all rights reserved.Best Homemade Carpet CleanersCarpet cleaning is a costly chore, with most commercial cleaning preparations priced at approximately \$0.30 per ounce. Homemade carpet shampoos are much cheaper than the store-bought counterpart, costing as little as \$0.05 per ounce.*The do-it-yourself versions are better for the environment, as they usually contain all-natural ingredients. In addition, there is no plastic bottle to throw away: each batch of cleaner is made as it is needed.Of course, many people wonder if the homemade versions work. As the mother of two young sons and a muddy Golden Retriever, I put the homemade solutions to the test on our family room carpet. All of the cleaning recipes worked for spilled juice stains, mud, and pet stains. Rust and ink stains were not removed with the steam cleaner recipes: these types of stains respond to other stain removal methods (see the Carpet Stain Removal table below).There are several tips to keep in mind when treating stains:Remember to blot, and never rub, a stain. Rubbing in a stain often grinds the stain deeper into the carpet and may spread the stain to other carpet fibers. Treat stains as they happen, as the stain is easier to remove when it is fresh. Use the right type of cleaning agent for specific stains. Ink stains require alcohol for removal, for example, while typical foot traffic will come clean with any of the general carpet cleaner recipes below. *Cost for vinegar and liquid dish soap carpet shampoo solution.The author's stained family room carpet, before cleaning.Alternative Solutions for Carpet SteamersMany people have reported success with using the following solutions in their carpet cleaner for a fraction of the cost of commercial steam concentrates:Use a solution of 50% Windex and 50% water. Mix liquid laundry detergent or laundry soap with water and use it in a steam cleaner. Use homemade laundry soap. DIY Carpet Steam Cleaner RecipesCommercial cleaning solutions are often very expensive, and a typical homeowner will go through a bottle of cleaner very quickly if carpets are in a high-traffic area of the house. A homemade cleaning solution is not only cheaper, but also avoids some of the harsh chemicals in the commercial preparations.Recipe #1The first recipe is simple and often produces results:1/2 cup ammonia 3 teaspoons dishwashing soap 1 gallon hot water There are many scented ammonia products available on the market, so feel free to use a lemon-scented or "rain" scented ammonia to leave carpets with a fresh smell after the cleaning is complete.An alternative recipe is nearly identical to the one above, but uses vinegar rather than ammonia:1/2 cup white vinegar 3 teaspoons dishwashing soap 1 gallon hot water Recipe #2This recipe is great for deodorizing carpets that see heavy pet traffic:1 cup Oxyclean 1 cup vinegar 1 gallon hot water Recipe #3This recipe is safe for carpets treated with Scotchgard™:1 cup Oxyclean 1 gallon hot water Carpet Stain Removal: Specific SituationsStainCleaning SolutionStainCleaning SolutionLemon juice, followed by a general carpet shampoo recipe.MustardBlot stain, then spray with a vinegar solution. Use COLD water and continue to blot until the stain is removed.InkRubbing alcohol.WineHydrogen peroxide and baking soda. BloodClub soda.VomitBlot up vomit, then sprinkle salt on the stain. Wait 10 minutes and use a general carpet cleaner.GlueSaturate the glue with rubbing alcohol and gently wipe until it is clean.WaxPlace a paper towel over the wax. Set an iron to warm and place it on top of the towel. The wax will melt and stick to the paper towel. GumFreeze the gum with ice and use a hammer (or other blunt object) to break the gum into pieces. Vacuum before the gum becomes sticky again.Nail PolishApply nail polish remover to a rag. Gently blot the area until it is clean.General Spot Cleaning RecipesTreating a small stain or spill is easy with these homemade recipes. The ingredients are easy to find around the house—if you don't have Borax, try checking the laundry detergent aisle at your local grocery store.Spot Cleaner Recipe #1:The first recipe is a dry powder recipe, and it is useful immediately after a spill has occurred. Use a towel to blot the stain dry, then apply a mixture of the following:1/4 cup Borax 1/2 cup Baking Soda This recipe often works on fresh stains, but older stains generally require a liquid spray.Spot Cleaner Recipe #2:This recipe can be made in advance and stored in a spray bottle.6 tablespoons vinegar 2 tablespoon washing soda 2 cups water Spray on the stain and allow the cleaner to sit for 10 minutes. If the stain is tough to remove, try using a scrubbing brush to work the cleaner into the stain. Blot dry.Carpet Stain PollWhat Is in Commercial Steam Cleaner Recipes?What is in commercial carpet steam cleaner concentrates?* A combination of detergents and citric acid are the active ingredients, including:Citric Acid (sequestering agent) Tetrasodium EDTA (sequestering agent) C12-16 Alcohols Ethoxylated 7EO (surfactant) Sodium Alkyl Naphthalene Sulfonate (surfactant) Sodium Laurel Sulfate (surfactant) Sodium Laureth Sulfate (surfactant) The inactive ingredients are added to make the product smell better or to act as filler:Fragrance Acrylate copolymer Inert filler Zinc Oxide (colorant) Dimethicone (cosmetic) Benzisothiazolinone (preservative) Methylisothiazolinone (preservative) *Ingredients in Resolve™ Steam ConcentrateThis article is accurate and true to the best of the author's knowledge. Content is for informational or entertainment purposes only and does not substitute for personal counsel or professional advice in business, financial, legal, or technical matters. Questions & AnswersQuestion: What is the recipe for the spot cleaner with Dawn dish washing detergent, baking soda, and H2O2? How much water is added?Answer: You can mix one tablespoon of Dawn dishwashing liquid, two tablespoons of hydrogen peroxide, and one tablespoon of baking soda to make a strong spot cleaner. You can increase the volume as needed. Apply the spot cleaner and blot the stain. Let it sit for a few minutes, then rinse the area with water. You can run your carpet cleaner after the spot treatment is applied and rinsed to clean the entire carpet area. © 2013 Leah LeflerLeah Lefler (author) from Western New York on May 03, 2013:Some people don't like the smell of vinegar, rajan jolly, but the smell dissipates quickly (once the carpet is dry) and vinegar is a great cleanser/deodorizer. I like using natural ingredients when possible, as my children play on our carpets and I don't want them exposed to too many chemicals.Rajan Singh Jolly from From Mumbai, presently in Jalandhar, INDIA, on May 03, 2013:Very interesting to learn about these natural carpet cleaners. Apart from saving money it is a healthy option.Thanks for sharing. Voted up and useful.Leah Lefler (author) from Western New York on February 05, 2013:I hate cleaning my carpets, too. Arielqiao. I will throw a party the day we get wood floors! At least I don't have to spend a fortune to clean my carpets with the homemade cleaner!Leah Lefler (author) from Western New York on January 23, 2013:We really try to use as many natural cleaners as possible, Hyphenbird. Vinegar is a great deodorizer as well as a disinfectant. I really can't wait to get rid of our carpet, but at least I have ways to clean it with natural ingredients!Brenda Barnes from America-Broken But Still Beautiful on January 23, 2013:Any home made chemical free cleaner makes me excited. We do not have any carpet in our home but I will use your vinegar recipe on my car upholstery. Thanks for the great idea.Leah Lefler (author) from Western New York on January 22, 2013:I dream of the day when we can get rid of our carpet. We had carpet and wallpaper EVERYWHERE when we moved into this house, teaches2345. We have put tile down in one entryway and have tiled the bathrooms, but I am anxious to rip up the rest of it so I can lay down solid flooring. In the meantime, I will keep shampooing the carpet on a regular basis - at least I can save money with the DIY cleaner!Dianna Mendez on January 21, 2013:I don't have carpets in my current home, but this would have come in really handy for those I had in the past. Love natural home cleaners because they are better for your health. Voted up!Leah Lefler (author) from Western New York on January 21, 2013:Om, we have a "no shoes" rule, too - of course, it doesn't help with a muddy dog - but it does help with foot traffic! Our carpet is over 25 years old and is horrid. We can't get out of all of the stains, no matter what we do. I will throw a party when we get new floors!Om Paramapoonya on January 21, 2013:Nice hub! Our carpet is pretty clean. We have no kids or pets. Plus, we don't wear shoes in the house. But it's always good to know some good carpet cleaner recipes just in case! I really like your "specific situations" chart. We're hosting a party in a couple weeks so people might spill some food or drink on the carpet, but hopefully, there will be no vomit on my floor! lolLeah Lefler (author) from Western New York on January 21, 2013:They work pretty well. Lipnancy! Of course, for certain stains you might need a commercial preparation, but it's always worth trying a cheap homemade cleaner first. I use the homemade solution for "everyday" cleaning, since we go through a LOT of carpet shampoo. One of these days, we'll be able to afford wood floors!Nancy Yager from Hamburg, New York on January 21, 2013:I have never tried homemade solutions for cleaning a carpet.Leah Lefler (author) from Western New York on January 19, 2013:I hope it works well for your pet stains, Nan - we have a cat and a Golden Retriever. Our cat sometimes has accidents inside and I blot up the urine with a dry towel and then sprinkle baking soda on top of the area. I let that sit for about 10-15 minutes, then use the homemade vinegar carpet cleaner in my steam cleaner or the oxyclean solution - both usually work well to clean up the mess and odor.Nan Mynatt on January 19, 2013:Great hub, I have a pet dog and this is very helpful. She sometimes has accidents, and I can use your suggestions without spending a fortune.Leah Lefler (author) from Western New York on January 19, 2013:Thanks, Carroll I love saving money, particularly since I have to clean my carpets on a regular basis. We live in the country and with clay soil, frequent precipitation, and a dog... our carpet is under constant attack! One of these days, we will get wood floors - a girl can dream!carol stanley from Arizona January 19, 2013:I love homemade cleaners.save money and avoid toxic fumes. Thanks for sharing these. Going to pin in my cleaning department on pinterest.
