Voice change active to passive exercise

Video Content Index: Voice Passive Summary: This dispensation will explain the difference between active and passive voice in writing. Dies examples of both and shows how to transform a passive phrase into an active one. Furthermore, he explains how to decide when choosing the passive item instead of active. If you want to change a passive voice phrase to the active item, finds the agent in a phrase "from ...", or carefully considers those who or what is performing the action expressed in the verb. Make that agent the subject of the sentence and changes the verb accordingly. Sometimes you will have to deduce the agent from the surrounding sentences that provide the context. If you want to change a voice phrase active under your heading, you carefully consider who or what is performing the action expressed in the verb, and then make that agent the object of A for the ... sentence. You do what is acted on the sentence topic and changes the verb to a form of being + past participle. Including an explicit from the phrase ... the phrase is optional. This passive entry contains a phrase ... sentence. Removal of the phrase ... phrase and reworking of the sentence will give the item active. Making "most of the class" The sentence subject moves the action of the phrase on the class and moves the passive phrase in an active voice. The agent is not explicitly indicated, but researchers are very likely. Making the agent The phrase object will allow you to use the active entry. This phrase now uses the active voice because the agent (researchers) now performs the action as the sentence subject. The director of the CIA and the strict conclusions of him are the agent of change in this phrase, but they are not the subject. Making the agent the subject will transform the sentence into an active more concise entry phrase. This phrase now uses the active voice because the agent (CIA director and the narrow consultants of him) is performing the share as a sentence. The agent is not specified in this sentence. This phrase now uses the active voice because the agent (us) is the object of the sentence. This agent of the active vocal phrase is the Presidency Manager, which is the subject. Amendment of the sentence subject to the subject from the agent (the Presidents' official) to the object of the Word (the recommendation of the committee) and the addition of A for the ... phrase transforms the sentence into the passive item. This phrase includes the agent (the leaders) as a person performing the action of the verb. This phrase now uses the passive voice because the subject has been modified by the agent (the leaders) to the object of the verb (a fair resolution). Scientists are the agent who performs the action of the verb in this active vocal phrase. This passive voice phrase no longer specifies the agent (scientist) and now uses the passive item because the object of the verb (traces of ice) is now object. To obtain triumph in competitive exams, candidates must score well in each section of the exam document. There are some topics that are common in every competitive exam. A candidate must have a good command on these topics to get a good degree. English has now been an essential part of every competitive exam and grammar is its nucleus. In this blog, we will talk about active and passive voice.
