Sign in to your Google Account, and get the most out of all the Google services you use. Your account helps you do more by personalizing your Google experience and offering easy access to your most important information from anywhere. Google services, from Chrome to YouTube, work better and help you do more when you're signed in. Your account gives you access to helpful features like Autofill, personalized recommendations, and much more — any time on any device. Autofill Works better for you Stay connected, across the internet Your Google Account helps you save time by automatically filling in passwords, addresses, and payment details using the information you've saved to your account. When you sign in to your Google Account, all the Google services you use work together to help you get more done. For example, flight confirmations in your Gmail inbox will automatically sync with your Google Calendar and Google Maps to help you get to the airport on time. From resuming YouTube videos across devices, to having your contacts, and favorite Play Store apps easily available, a single sign-in allows for a seamless experience across Google. Your Google Account also makes it easy for you to sign in to third-party apps safely and quickly so your preferences go with you even beyond Google. Your Google Account makes every service you use personalized to you. Just sign into your account to access your preferences, privacy and personalization controls from any device. Instant access Privacy controls A safe place for your info You're never more than a tap away from your data and settings. Just tap your profile picture and follow the link to "Manage your Google Account". From your profile picture, you can also easily sign in, sign out, or turn on Incognito mode. When it comes to privacy, we know one size doesn't fit all. That's why every Google Account comes with easy-to-use controls and tools like Privacy Checkup so you can choose the privacy settings that are right for you. You can also control what data is saved in your account with easy on/off controls, and even delete your data by date, product, and topic. Protecting all the information in your Google Account has never been more important. That's why we've built powerful protections and tools like the Security Checkup and Google Password Manager into every account. Built-in security Security Checkup Google Password Manager Your Google Account automatically protects your personal information and keeps it private and safe. Every account comes with powerful features like spam filters that block 99.9% of dangerous emails before they ever reach you, and personalized security notifications that alert you of suspicious activity and malicious websites. This simple tool gives you personalized recommendations to help keep your account secure. Your Google Account comes with a built-in password manager that securely saves your passwords in a central place only you can access. If you use Gmail, you already have a Google Account. With a Google Account, you have access to Google products at no charge like Drive, Docs, Calendar, and more. To sign in to your Google Account (or any Google product): Go to the sign in page of the product (for Google Accounts it is myaccount.google.com). Enter your Gmail username (everything that appears before '@gmail.com'). Enter your password. Add Gmail to an existing Google Account If you add Gmail to your Google Account, your account's primary username permanently changes to yourusername@gmail.com. After you add Gmail, the original email address associated with your account becomes your alternate email address. If you verify your original email address before you add Gmail, you can sign in with this email address. To add Gmail to your Google Account: Go to mail.google.com. Fill out the form. Click Submit. To verify your account, follow the instructions. Tip: If you use Sign in with Google or Chrome Remote Desktop and you change your primary email address, you may experience issues. Learn about issues with primary email address change. Common issues I don't think I have a Gmail account New Google Accounts come with Gmail, so you should already have a Gmail address if you've created your account recently. If you never created a Gmail account, you can sign up at no charge. To create a Gmail account: Go to Gmail.com. Select More options Create an account. Follow the onscreen instructions. I think I deleted my Gmail account If you already have a Google Account and deleted your Gmail account, you can add Gmail to your current Google Account. To add Gmail: Go to mail.google.com. Sign in to your Google Account. Follow the onscreen information to add Gmail to your account. When you add Gmail, your Gmail address will become the primary username on your account. It will be what others see when you share information, such as documents or photos, from your Google Account. Your original email address will become the recovery address on your account. If you have more questions, visit the Gmail Help Center. Post to the help community Get answers from community members Set how you sign in to Google apps and services. You can choose to sign in To access your Gmail account, you can follow these steps: Firstly, open the Gmail website on your computer or mobile device and enter your Google email address in the text field provided. If you don't have a Gmail account, click the "Create account" button to make one. After that, enter your password in the next box and click "Next". You will be asked to verify your identity through two-step verification if it's enabled for your account. Alternatively, you can use the Gmail app on your Android or iOS device. For Android, open the Gmail app when setting up your phone and sign into your Google Account by entering your email address and password. On iOS, download the Gmail app from the App Store and sign in with your Google Account information. To add a Gmail account to your iPhone's Mail app, follow these steps: Tap the Settings app icon. Tap Apps, then tap Mail. Tap Mail Accounts, then tap Add Account. Tap Google, then sign in with your Gmail email address and password. Enter the password you use to log into Gmail. Select features to sync, such as Notes or Attachments. Tap Save.
