

I'm not a bot

Now known as the Yoto Carnegie Medal for Illustration.The Kate Greenaway Medal is awarded annually to an artist for an outstanding book in terms of ilNow known as the Yoto Carnegie Medal for Illustration.The Kate Greenaway Medal is awarded annually to an artist for an outstanding book in terms of illustration for children and young people published in the United Kingdom in the preceding year. It is considered the top British award for children's book illustrations. Often compared to the Caldecott Award, the Kate Greenaway Medal differs in that the work does not have to be a children's picture book. The Kate Greenaway Medal was established by the Library Association in 1955. A major reason for beginning this award was that in 1954, the Carnegie Medal judges awarded a special commendation for illustration to Harold Jones for his illustrations in *Lavender's Blue*. Winners are listed by the year the book was published. The medal is presented to the winner the following July.The book must be published originally for children or young people in the United Kingdom. The illustrations must be of outstanding artistic quality while the whole work should provide a pleasing and satisfying visual experience. The text must be in English, or it is a dual language publication, one language must be English. Images and text must be consistent and relate well to each other. Kate Greenaway (1846-1901) was an English artist, illustrator and writer of children's verse. She portrayed children romping in petticoats and fancy dresses. She was a prolific illustrator whose illustrations appeared not only in children's books, but also on greeting cards, calendars and gift wrapping paper.Prior to 2000, the winner received a gold medal and £500 worth of books to donate to a library. In 2000, Colin Mears, an accountant and children's book collector, left a bequest to provide every Kate Greenaway winner with £5000 (about \$7500) as well as the coveted Kate Greenaway Medal. Since 1956, the Carnegie Medal has been a companion to the Kate Greenaway Medal, which is awarded for an illustrated children's book. Also known as the Yoto Carnegie Medal for Writing,Both Fiction and Non-Fiction works are eligible for the award, but the winner is usually fiction.The award is given by CLIPJ (The Chartered Institute of Library and Information Professionals). Between 1994 and 2002, some runners-up to the main Carnegie Medal were marked by judges as Commended or Highly Commended. The shortlisted books are listed as "nominee". edit descriptions of this character . Helen Constant founded the Massachusetts Children's Book Award Program in 1975. Designed for Massachusetts schoolch . Helen Constant founded the Massachusetts Children's Book Award Program in 1975. Designed for Massachusetts schoolchildren in grades 4-6, the program briefly included grades 7-9 from 1978 through 1983.Today, fourth-, fifth-, and sixth-graders are given a master list of book titles. After reading five of the books, students may vote for their favorite. The American Booksellers Book of the Year Award, also known as the ABBY Award, was established in 1991 to honor the "hidden treasures" that ABA bookstore members most enjoyed recommending to their customers during the previous year.Starting in 2000, this award was changed to the Book Sense Book of the Year Award.In 2009, the award was again renamed and is now known as the Indies' Choice Book Award. — copy and redistribute the material in any medium or format for any purpose, even commercially. Article written by Mohandas Aha M.A. Degree in English Literature from Manipal University, India. "Harry Potter and the Philosopher's Stone" is a children's book, but it has a lot of essential life lessons for readers of all ages. The world-building for this novel hooks the readers into staying engaged, and the third-person narration adds to the detailed storytelling ability of the book. Several themes that are crucial to a child's development are tackled in this book. Themes like love, friendship, and life lessons to tell apart absolute good and evil form a major part of the wider roster of themes that reside in this book. Themes Magic Although an obvious theme, magic is an essential theme and is crucial in the details that build the story world. The major fascination in this book comes from a wide array of magical nuances that would be helpful to have in the real world. Spells, enchantments, potions, magical beings, artifacts, and several other aspects that make the story of "Harry Potter and the Philosopher's Stone" a great read for children play an important role in building the imagination of the reader. Spells like Wingardium Leviosa, flying broomsticks, or Madam McGonagall's transfiguration into a cat are all impossibilities in the real world but add to the fascinating attraction that makes this book a memorable one. It caters to the escapism and fantastical requirement of the reader, thereby creating a sort of 'magic' of its own. Friendship Although similar in many respects to love, friendship has a more nuanced role in "Harry Potter and the Philosopher's Stone." Starting with Hagrid, who is Harry's first friend in the book, Harry goes on to make several friends, including Ron and Hermione. Furthermore, the idea of making friends is also of major importance in "Harry Potter and the Philosopher's Stone." When Harry meets Draco Malfoy for the first time in Madam Malkin's shop, Harry has already formed an opinion of Draco, and during their second meeting, Harry rejects Draco's hand at the friendship and to his desire to see his parents in the Mirror of Erised, Harry says, "I think I can tell the wrong sort for myself." Another minor yet important theme in "Harry Potter and the Philosopher's Stone" is sacrifice. Harry Potter and the Philosopher's Stone" is sacrifice. Harry Potter's mother, Lily Potter, sacrifices her life to save him. Although Ron is partially responsible for Hermione being locked in with a mountain troll, Harry and Ron sacrifice their safety by choosing to save her from the troll and run towards danger knowingly. Hermione sacrifices her place in Hogwarts by saving both Harry and Ron from possible expulsion from Hogwarts and risking her own expulsion. Finally, Ron sacrifices himself in the game of Wizard chess to facilitate safe passage for Harry and Hermione to protect the Philosopher's Stone. While this being a children's book allows for most of them to be unhurt despite sacrifice, all these choices to sacrifice themselves, made by the characters, involve accepting the possibility of death. Courage and Bravery An essential theme of "Harry Potter and the Philosopher's Stone," bravery plays a major role throughout the narrative. For example, Neville Longbottom is scared and nervous in most parts of the book. He gets bullied severely, especially by Malfoy and his friends, Crabbe and Goyle. However, taking Ron's word of 'having to stand up for himself', Neville gathers enough courage to fight Malfoy during the Quidditch match. He goes on to even stand up against his very friends, Harry, Ron, and Hermione when they are on the verge of breaking school rules. Bravery is also portrayed by Harry, Ron, and Hermione as they persevere amid challenges and keep their goal to prevent the stealing of the Philosopher's Stone always. Love and Family One of the 'standout' themes of "Harry Potter and the Philosopher's Stone," and by extension, the whole book series, is love. The very premise of Harry Potter surviving the killing curse of Lord Voldemort is based on the protection offered by Harry's mother, Lily. By sacrificing herself to protect her son, she builds a strong magical shield around Harry, and Voldemort is destroyed by his very own curse as it rebounds. Love is a recurring theme in the entire novel, and it dictates the dynamic of the plot. For instance, the lack of love from Harry's foster family and his hatred towards them is in clear contrast to his desire to see his parents in the Mirror of Erised, which is fueled by love. Intelligence Another minor yet important theme in "Harry Potter and the Philosopher's Stone" is intelligence. Another major theme in "Harry Potter and the Philosopher's Stone" is sacrifice. Harry Potter's mother, Lily Potter, sacrifices her life to save him. Although Ron is partially responsible for Hermione being locked in with a mountain troll, Harry and Ron sacrifice their safety by choosing to save her from the troll and run towards danger knowingly. Love is a recurring theme in the entire novel, and it dictates the dynamic of the plot. For instance, the lack of love from Harry's foster family and his hatred towards them is in clear contrast to his desire to see his parents in the Mirror of Erised, which is fueled by love. Intelligence Another minor yet important theme in "Harry Potter and the Philosopher's Stone" is intelligence. Another major theme in "Harry Potter and the Philosopher's Stone" is sacrifice. Harry Potter's mother, Lily Potter, sacrifices her life to save him. Although Ron is partially responsible for Hermione being locked in with a mountain troll, Harry and Ron sacrifice their safety by choosing to save her from the troll and run towards danger knowingly. Hermione sacrifices her place in Hogwarts by saving both Harry and Ron from possible expulsion from Hogwarts and risking her own expulsion. Finally, Ron sacrifices himself in the game of Wizard chess to facilitate safe passage for Harry and Hermione to protect the Philosopher's Stone. While this being a children's book allows for most of them to be unhurt despite sacrifice, all these choices to sacrifice themselves, made by the characters, involve accepting the possibility of death. Courage and Bravery An essential theme of "Harry Potter and the Philosopher's Stone," bravery plays a major role throughout the narrative. For example, Neville Longbottom is scared and nervous in most parts of the book. He gets bullied severely, especially by Malfoy and his friends, Crabbe and Goyle. However, taking Ron's word of 'having to stand up for himself', Neville gathers enough courage to fight Malfoy during the Quidditch match. He goes on to even stand up against his very friends, Harry, Ron, and Hermione when they are on the verge of breaking school rules. Bravery is also portrayed by Harry, Ron, and Hermione as they persevere amid challenges and keep their goal to prevent the stealing of the Philosopher's Stone always. Love and Family One of the 'standout' themes of "Harry Potter and the Philosopher's Stone," and by extension, the whole book series, is love. The very premise of Harry Potter surviving the killing curse of Lord Voldemort is based on the protection offered by Harry's mother, Lily. By sacrificing herself to protect her son, she builds a strong magical shield around Harry, and Voldemort is destroyed by his very own curse as it rebounds. Love is a recurring theme in the entire novel, and it dictates the dynamic of the plot. For instance, the lack of love from Harry's foster family and his hatred towards them is in clear contrast to his desire to see his parents in the Mirror of Erised, which is fueled by love.
