Riddle 13

What did the duck wear to his wedding?

1. $\frac{2}{4} + \frac{1}{4} =$ _____

2. $\frac{1}{2} + \frac{1}{2} =$ _____

3. $\frac{3}{8} + \frac{2}{8} =$ _____

4. $\frac{5}{7} + \frac{2}{7} =$ _____

5. $\frac{2}{5} + \frac{1}{5} =$ _____

6. $\frac{4}{10} + \frac{3}{10} =$ _____

7. $\frac{3}{12} + \frac{2}{12} =$ _____

8. $\frac{1}{3} + \frac{1}{3} =$ _____

9. $\frac{5}{12} + \frac{2}{12} =$ _____

10. $\frac{1}{6} + \frac{1}{6} =$ _____

11. $\frac{6}{9} + \frac{1}{9} =$ _____

12. $\frac{7}{11} + \frac{3}{11} =$ _____

13. $\frac{1}{2} + \frac{1}{2} =$ _____

14. $\frac{1}{3} + \frac{1}{3} =$ _____

Solve the Riddle! Write the letter that goes with each answer.

1 2 3 4 5 6 7 8 9 10 11 12 13 14

25. Choose the equivalent fraction.

$\frac{9}{12} = ?$

$\frac{27}{24}$ $\frac{1}{3}$ $\frac{6}{12}$ $\frac{3}{4}$

26. Choose the equivalent fraction.

$\frac{6}{12} = ?$

$\frac{2}{3}$ $\frac{1}{2}$ $\frac{3}{4}$ $\frac{1}{6}$

27. Choose the equivalent fraction.

$\frac{2}{5} = ?$

$\frac{8}{24}$ $\frac{1}{10}$ $\frac{4}{12}$ $\frac{8}{20}$

28. Choose the equivalent fraction.

$\frac{1}{5} = ?$

$\frac{10}{20}$ $\frac{1}{10}$ $\frac{4}{20}$ $\frac{10}{25}$

Name _____ Date _____

BERTIE'S BIG WIN

Bertie has just had a big win at the lottery.

He spends $\frac{1}{2}$ of his money on a large house.

He spends $\frac{1}{3}$ of his remaining money on a luxury yacht.

He spends $\frac{2}{3}$ of his remaining money on a trip into space.

He gives the remaining \$50,000 to charity.

How much money did he win?

Hint: You could use fraction strips to help you work this out.

Can you make up your own math problem like this one?

You may select between 10, 15, 20 or 30 problems for each worksheet. Decimal Equivalents of Fractions for an Inch Worksheets These fractions worksheets are great handouts for student learning about fractions and the decimal equivalents for an inch. You can choose from proper fractions, improper fractions or both. These fractions worksheets may be selected from four different number ranges. The answer worksheet will show the progression on how to solve the problems. Sheets 1 to 4 consists of 15 problems; sheets 5 and 6 consist of 20 problems. Least Common Multiple Worksheets These fractions worksheets are great for practicing finding the Least Common Multiple of number sets. Here you will find a range of Multiplication Worksheets to help you become more fluent and accurate with your tables. Our fractions worksheets are free to download, easy to use, and very flexible. Adding and Subtracting Fractional Inches with Borrowing Worksheets These Fractions Worksheets are great for practicing how to add, subtract and borrow with fractional inch measurements that you would find on a tape measure. Adding Three Fractions Worksheets These fractions worksheets are great for testing children in their adding of three fractions. Solving Fractions with Exponents Worksheets These fractions worksheets are great for practicing solving fractions with exponents. Dividing

Fractions and Whole Numbers Worksheets These fractions worksheets are great for working with dividing fractions and Whole Numbers. Page 2 Welcome to our 2 Digit Multiplication Worksheets page. Using Equivalent Fraction Strips is a great way to learn your Fraction facts and help you to understand exactly how fractions are worth in a visual way. Comparing Fractions and Decimals Worksheets These fractions worksheets are great for testing children to compare Fractions and Decimals to see if they are greater than, less than or equal. Multiplying Fractions Worksheets with Cross Cancelling These fractions worksheets are great for working on multiplying fractions. Sheets 3 to 6 involve multiplying a 2-digit number by single digit numbers and finding increasing trickier products. You may select the number of problems per worksheets, the number of fractions to sort per problem, the range of numerators and denominators, as well as the way to order the fractions. Subtracting Fractions and Whole Numbers Worksheets These fractions worksheets are perfect for practicing subtracting fractions from whole numbers. Visual Fractions Worksheets These fractions worksheets are great for teaching different fractions using visual fraction problems. These worksheets will create twenty problems per page. Need to create your own long or short multiplication worksheets quickly and easily? These fractions problems will have the same denominators and not equal zero. These fractions worksheets are a great resource for children in Kindergarten, 1st Grade, 2nd Grade, 3rd Grade, 4th Grade, and 5th Grade. These fraction worksheets will generate 10 or 15 problems per worksheet. You can choose from supported sheets with diagrams for students who need extra help to harder worksheets for those more confident. These fractions problems include visual representations to aid the student in the addition. These worksheets will generate 20 fractions problems with exponents per worksheet. Converting Between Fractions and Decimals Worksheets These fractions worksheets are great for testing children for converting between Fractions and Decimals. Using these games will help your child to learn their multiplication facts to 5x5 or 10x10, and also to develop their memory and strategic thinking skills. The Prime Factorization Trees Worksheets are great visual aids. Reducing Fractions Worksheets These fractions worksheets are great for testing children in their reducing of fractions. These worksheets will randomly generate 5 fraction subtraction problems per worksheet with the answer worksheet. These worksheets will generate 10 tape measurement fraction subtraction problems per worksheet. More Double digit Multiplication Worksheets (harder) Take a look at some more of our worksheets similar to these. Ordering Fractions Worksheets These Fractions Worksheets will produce problems that involve ordering fractions. These worksheets will generate 10 or 15 mixed number subtraction problems per worksheet. Click here for a Detailed Description of all the Fractions Worksheets. Subtracting Three Fractions Worksheets These fractions worksheets are great for testing children in their subtracting of three fractions. The worksheet will create twenty problems per page. Subtracting Tape Measure Fractions Worksheets These fractions worksheets are great for practicing how to subtract measurement you would find on a tape measure. Here you will find a range of fraction help on a variety of fraction topics, from simplest form to converting fractions. We collect this information so that if a class of students is taking a quiz, the individual results can be recorded along with the first name of the student. Adding Two Fractions Worksheets These fractions worksheets are great for testing children in their adding of two fractions. Here is a graphic preview for all of the fractions worksheets. These worksheets will generate 10 fraction multiplication problems per worksheet. Adding Mixed Number Fractions Worksheets These fractions worksheets are great for practicing Adding Mixed Number Fractions Problems. These worksheets will generate 10 fractional inch problems per worksheet. Simplify Fractions Practice Zone Simplifying Fractions Worksheet page Once you are confident at equivalent fractions, you can learn how to compare fractions by converting them to a common denominator. Playing games is a great way to learn fraction skills in a fun way. Multiplication Math Games How to Print or Save these sheets Need help with printing or saving? You may select the denominators of the fractions and the type of the problems. Adding and Subtracting Fractional Feet & Inches with Borrowing Worksheets These Fractions Worksheets are great for practicing how to add, subtract and borrow feet and fractional inch measurements that you would find on a tape measure. These games are suitable for kids aged from 3rd grade and upwards. Want to test yourself to see how well you have understood this skill?. Adding Tape Measure Fractions Worksheets These fractions worksheets are great for practicing how to add measurement you would find on a tape measure. These worksheets will generate 10, 15 or 20 Least Common Multiple problems per worksheet. This error is a Google error in the Google Quiz app - it is currently unresolved! We would be grateful for any feedback on our quizzes, please let us know using our Contact Us link, or use the Facebook Comments form at the bottom of the page. The answer worksheet will show the progression on how to solve the fraction problems. Adding Fractional Inches Worksheets These fractions worksheets are great for practicing how to add fractional inch measurements that you would find on a tape measure. Adding & Subtracting Three Fractions Worksheets These fractions worksheets are great for testing children in their adding and subtracting of three fractions. The answer worksheets will show the progression on how to solve the problems. Multiplying Fractions Worksheets with Whole Numbers These fractions worksheets are great for working with multiplying fractions with Whole Numbers. They will produce a table of all the fractions from 1/64th to 63/64th of an inch. Finding Fractions of Whole Numbers Worksheets These Fractions Worksheets are great for testing children for finding fractions of whole numbers. These fractions worksheets may be selected from two different degrees of difficulty. These worksheets will generate 10 to 100 fraction subtraction problems per worksheet. Equivalent Fraction Problems Worksheets These fractions worksheets will produce equivalent fraction problems with different numerators and denominators. Fraction equivalence, fraction to decimal conversion and properties of fractions are all explored in our fun games to play. Dividing Fractions Worksheets | Invert and Multiply These fractions worksheets are great for working on dividing fractions. The fractions worksheets may be selected for three different degrees of difficulty. The fractions worksheets may be selected for five different degrees of difficulty. These worksheets will generate 10 fraction mixed number division problems per worksheet. Prime Factorization Trees Worksheets These fractions worksheets are great for practicing finding all of the prime factors contained in a number. Finding Equivalent Fractions support page Take a look at some more of our worksheets similar to these. Subtracting Fractional Inches Worksheets These fractions worksheets are great for practicing how to subtract fractional inch measurements that you would find on a tape measure. These worksheets will randomly generate 5 fraction addition problems per worksheet with the answer worksheet. The student will be given a list of fractions and be asked to order them in ascending or descending order. Comparing Fractions Worksheets These fractions worksheets are great for testing children to compare Fractions to see if they are greater than, less than or equal. These worksheets will generate 10 Equivalent Fractions problems per worksheet. These worksheets are appropriate for Kindergarten, 1st Grade, and 2nd Grade. The sheets in the second sections start off visual and become more abstract and tricky! Using these sheets will help your child to: develop an understanding of equivalent fractions; know when two fractions are equivalent; find a fraction that is equivalent to another. Visually Subtracting Simple Fractions Worksheets These fractions worksheets are great practice for beginning to subtract simple fractions. Adding Simple Fractions Worksheets These fractions worksheets are great practice for beginning to add simple fractions. These worksheets will generate 10 fraction mixed number multiplication problems per worksheet. You can select from five different degrees of difficulty. These 2-digit multiplication worksheets have been designed for more able students who need that extra challenge! We have more 2-digit multiplication worksheets, including 2-digit x 3-digit multiplication problems on this page. The student will fill in the missing numerators and denominators. These sheets are aimed at 3rd graders. Our worksheets are carefully graded so you can pitch the work at just the right level. The easiest will keep the denominators and the numerators between 1 and 9. There are fraction videos, worked examples and practice fraction worksheets. Using these sheets will help your child to: learn their multiplication tables up to 10 x 10; understand and use different models of multiplication; solve a range of Multiplication problems. We also collect the results from the quizzes which we use to help us to develop our resources. You can print out your results or benchmark your scores against future achievements. Equivalent Fractions Worksheets These fractions worksheets have rows of equivalent fractions, each with either the numerator or denominator left blank. Subtracting Fractions Worksheets These fractions worksheets will produce problems that will test children in their subtraction of two fractions. How to Print or Save these sheets Need help with printing or saving? Follow these 3 easy steps to get your worksheets printed out perfectly! The Math Salamanders hope you enjoy using these free printable Math worksheets and all our other Math games and resources. This will take you to a new webpage where your results will be shown. Sheets 2 to 4 have harder 2-digit numbers to multiply and answers that are generally larger than 1000. Greatest Common Factor Worksheets These fractions worksheets are great for practicing finding the Greatest Common Factor of number sets. Visual Aids for Teaching Fractions Worksheets Use these fractions worksheets to produce rectangular fractions bars and pie wedge fractions to be used as visuals in your teaching lesson plans. These worksheets will generate 10 fraction mixed number addition problems per worksheet. These worksheets will randomly generate 10 fraction subtraction problems per worksheet with the answer worksheet. These worksheets will produce fraction representations with denominators of 2 through 12. These worksheets will generate 10, 15 or 20 Greatest Common Factor problems per worksheet. The problems will use 1/2's, 1/4's, 1/8's. These 2-digit multiplication worksheets have been designed for more able students who need that extra challenge! These sheets are aimed at 4th graders. One fraction in each row will be written with both the numerator and denominator. You can print a copy of your results from this page, either as a pdf or as a paper copy. Our quizzes have been created using Google Forms. Click the image to be taken to that Fractions Worksheet. You can select different variables to customize these fractions worksheets for your needs. These fractions worksheets will use 1/2's, 1/4's, 1/8's. Our Multiplication worksheet generator will allow you to create your own custom worksheets to print out, complete with answers. You may select different denominators and have the problems produce similar denominators, or problems with similar numerators, or a mixture of both. The hardest will keep the numerators between 1 and 20. It will produce 15 Improper Fractions problems and 15 Mixed Number problems per worksheets. You may select 3 or 4 digit to the right of the decimal. Using these fraction strips will help your child to: understand Fraction as lengths; understand equivalent fractions; understand visually how much each fraction is worth. Here you will find a range of Free Printable Multiplication Games to help kids learn their multiplication facts. These worksheets will generate 10 tape measurement fraction addition problems per worksheet. Sheet 1 involves 2-digit by 2-digit multiplication with smaller numbers and answers up to 1000. Welcome to our Equivalent Fractions Worksheets page. Sheets 1 and 2 involve multiplying 2-digit numbers by 2, 3, 4 or 5. Follow these 3 easy steps to get your worksheets printed out perfectly! How to Print or Save these sheets Need help with printing or saving? How to Convert Improper Fractions Improper Fraction Worksheets Fractions Decimals Percents Worksheets Looking to convert between fractions, decimals and percentages? These worksheets will generate 10 fraction division problems per worksheet. On this page we have a wide range of support sheets and practice sheets to help you to fully understand the concept of equivalent fractions. These worksheets may be selected for different denominators so the problems may be positive, negative or mixed. These fractions worksheets are great teaching aids for teaching your children different fractions. 1/16's and there is an option to select 1/32's and 1/64's. NB. Equivalent Fraction Strips Take a look at our Simplifying Fractions Practice Zone or try our worksheets for finding the simplest form for a range of fractions. We do not collect any personal data from our quizzes, except in the 'First Name' field which is optional. If you're looking for a great tool for adding, subtracting, multiplying or dividing mixed fractions check out this online Fraction Calculator. Dividing Mixed Number Fractions Worksheets These fractions worksheets are great for practicing Dividing Mixed Numbers Problems. The fractions worksheets may be selected for two different degrees of difficulty. Visually Adding Simple Fractions Worksheets These fractions worksheets are great practice for beginning to add simple fractions. We have some carefully graded worksheets on comparing and ordering fractions. At the end of the quiz, you will get the chance to see your results by clicking 'See Score'. Understanding Least Common Multiples are very important for working with fraction problems. The fractions will have the same denominators and not exceed the value of one. The sheets are carefully graded so that the easiest sheets come first, and the most difficult sheet is the last one. All the free 3rd Grade Math Worksheets in this section are informed by the Elementary Math Benchmarks for 3rd Grade. These worksheets will generate 10 to 100 fraction problems per worksheet. You may select the types of expressions used, the type of operations and the denominators used in the fractions. Understanding Greatest Common Factors are very important for working with fraction problems. Converting Improper Fractions and Mixed Numbers Worksheets These fractions worksheets are great for working on converting Improper Fractions and Mixed Numbers. Try our NEW quick quiz at the bottom of this page. These fractions problems will have the same denominators and not exceed the value of one. These worksheets will generate 10 fraction addition problems per worksheet. The fractions worksheets may be selected for four different degrees of difficulty. We have split the worksheets on this page into two sections: 2-digit x 1-digit multiplication (3rd grade) 2-digit x 2-digit multiplication (4th grade) Each section ends with some trickier challenge sheets for more able students. Denominators and Numerators Comparison Worksheets These fractions worksheets are great for testing children in their comparison of fractions with similar denominators and numerators to see if they are greater than or less than. Here you will find a selection of Fraction worksheets designed to help your child practice their equivalent fractions. You may select whether or not the fractions worksheets require regrouping or not. These fractions worksheets will produce fraction representations from a whole thru 1/12's. Here you will find the support page on how to find equivalent fractions if you get stuck or want some support. Comparing Fractions Worksheet page Are you looking for free fraction help or fraction support? Multiplying Mixed Number Fractions Worksheets These fractions worksheets are great for practicing Multiplying Mixed Numbers Problems. These worksheets will generate 6 Prime Factorization Tree problems per worksheet and the answer keys are generated. We have split the sheets into two sections with the first section looking at visual fractions of circles. Subtracting Mixed Number Fractions Worksheets These fractions worksheets are great for practicing Subtracting Mixed Number Fraction Problems. We have a wide range of worksheets to meet your needs! Fractions Decimals Percents Worksheets Math Fraction Games Here is our collection of Math games involving fractions. These fractions worksheets may be selected for five different degrees of difficulty. Subtracting Simple Fractions Worksheets These fractions worksheets are great practice for beginning to subtract simple fractions. Within each section, the sheets are carefully graded with the easiest sheets first. These fractions worksheets may be selected from easy, medium or hard level of difficulty. We have a support page to help students understand how what improper fractions are and how to convert them. We also have a wide range of Improper Fraction Worksheets, some of which use visual fractions to aid understanding and some sheets which are more abstract. The students will be asked to identify the fractions for the shaped in shape, and to shade in the shape for the given fraction. For incorrect responses, we have added some helpful learning points to explain which answer was correct and why. Multiplying Fractions Worksheets These fractions worksheets are great for working on multiplying fractions. The fractions worksheets are randomly created and will never repeat so you have an endless supply of quality fractions worksheets to use in the classroom or at home. We have plenty of worksheets on this page to help you practice the skills of multiplying 2-digit numbers by 1 or 2 digits. For more information on the information we collect, please take a look at our Privacy Policy If the error message 'File Unavailable' should appear in a pop-up window with a 'RELOAD' option in the bottom right corner of the screen: Don't click the RELOAD link - it doesn't do anything click anywhere on the screen but not inside the pop-up window the pop-up window should disappear and you should be able to see your results. You may select 10, 20 or 30 problems per worksheets. We welcome any comments about our site or worksheets on the Facebook comments box at the bottom of every page.
