We use cookies and data to Deliver and maintain Google services Track outages and protect against spam, fraud and abuse Measure audience engagement and site statistics to understand how our services are used and enhance the quality of those services If you choose to 'Accept all', we will also use cookies and data to Develop and improve new services Deliver and measure the effectiveness of ads Show personalised content, depending on your settings Show personalised ads, depending on your settings If you choose to 'Reject all', we will not use cookies for these additional purposes Non-personalised content is influenced by things like the content that you're currently viewing, activity in your active Search session, and your location. Non-personalised ads are influenced by the content that you're currently viewing and your general location. Personalised content and ads can also include more relevant results, recommendations and tailored ads based on past activity from this browser, like previous Google searches. We also use cookies and data to tailor the experience to be age-appropriate, if relevant. Select 'More options' to see additional information, including details about managing your privacy settings. You can also visit [g.co/privacypolicy](https://www.google.com/privacypolicy) at any time. Set how you sign in to Google apps and services. You can choose to sign in with a password or add 2-Step Verification, which sends a security code to your phone as an extra security step. On some apps and devices, you can use an app password to sign in to your Google Account. Gmail has always had strong security as a foundation. We work hard to protect you from spam, phishing, and malware, before they reach your inbox. Our AI-enhanced spam-filtering capabilities block nearly 10 million spam emails every minute. No. While you may see ads in your no-cost Gmail account, your emails are private. Google does not scan or process Gmail content for advertising purposes. While Gmail's features are secure enough for most users, some accounts may require additional layers of safety. Google's Advanced Protection Program safeguards users with high visibility and sensitive information, who are at risk of targeted online attacks. Learn more Gmail is part of Google Workspace where you can choose from different plans. In addition to what you love about Gmail, you get a custom email address (@yourcompany.com), unlimited group email addresses, 99.9% guaranteed uptime, twice the storage of personal Gmail, zero ads, 24/7 support, Google Workspace Sync for Microsoft Outlook, and more. Learn more Browse tips and step-by-step guides made for both new users and power users. Help Center Compose new messages while keeping an eye on your inbox. The new experience is fast, easy to use and packed with new features. Learn more Forget about files being too big to email. You can now add files up to 10GB (400x larger than before) using Google Drive. Plus, files stored in Drive stay up-to-date automatically. Learn more The number of available themes has increased from 35 to...infinity. Select your own image to use as a custom theme, or choose from a selection of featured photos. Learn more See more features It's always easy to find what you're looking with the power of Google Search right in your inbox. Turn any conversation into a video call with up to 10 friends with Hangouts in Gmail. Then add apps and effects to put a smile on your face. Gmail is always available wherever you are, from any device - desktop, laptop, phone or tablet. See more reasons Gmail makes email easy and efficient. And maybe even fun. With Gmail, you'll get lots of storage space, less spam, fast search and lots more. But how? Switching to Gmail is actually really easy. After you sign up, you'll see the option to transfer over messages and contacts from your old account. That way, you can pick up right where you left off. Signing up » Signing up for Gmail only takes a few minutes. You'll just need to enter some basic information (like your first and last name), choose an available username, and pick a secure password. Signing in To sign-in to Gmail, visit [gmail.com](https://www.gmail.com) on your computer or on your phone. If it's your first time using Gmail, you may want to check out this Getting Started guide. Transferring mail & contacts » After signing up for Gmail, you can quickly and easily transfer contacts and messages from your old email account. This works for major providers like Yahoo, AOL, Microsoft, and many others (see full list). How to set it up To import contacts and/or messages, first create a Gmail account and sign in. Then click the gear in the top right corner of your account, select Mail Settings, and visit the Accounts and Import tab. There, you'll see an "Import Mail and Contacts" button. Custom "from" address » If you've been using the same email address for a while, you may want to continue to send mail from that address. Luckily, you can switch to Gmail and still send emails that display your old address in the "From" field. How to set it up To add a different "From" address, log-in to your Gmail account and click the gear in the top right corner. Select Mail Settings and visit the Accounts and Import tab. Under "Send Email As" click Add another email address. Follow the steps on-screen (or see these detailed instructions) to complete the set up. Announcing your address » Once you've created a Gmail account you'll probably want to tell your friends and family about your new address. Email your friends from your new account and tell them to contact you there from now on. Setting up an auto-reply You may also want to set-up an auto-reply (sometimes called an "automatic vacation response") for your old account. That way, anyone who emails your old address will get a message letting them know to reach you at your new Gmail address.
