The game has over 850 different levels. It is available for both iOS and Android. Some levels may be difficult, so it is advisable to participate in a club club to deal with difficult levels. Every game starts with a random layout. The layout will control face-to-face cards with some face-up cards positioned on them. The remaining papers are positioned to create a Discarded. Gameplay The goal of Solitaire Tripeaks is to move all the cards from the three peaks on the waste. You can only move open cards for waste, a card is considered open if there are no other card covers. Initially, the entire row of the bottom is open. Once you have moved the cards from the peaks open other cards you can then flip and are therefore open to move to waste. You can get unlimited coins by downloading Solitaire Tripleaks mod mod You can move a paper to the waste field, if one is one higher, or one lower than the top top of the waste. For instance. If thereÀÀ € s à 6 on the waste you can move a 5 or 7 there. In the beginning, the refusal is empty and you can move any card of there. You have the permission of a turn of the Cornera, that is to say to go to 2 to K, you can put an ace on a 2 or a king. If you have no cards in the peaks that can be moved to the waste, then you can get a paper from the warehouse and turn it up to the waste. You can only go once through the warehouse, there are no resets allowed, so DoNÀ € t use the actions unless you can move all the tabs from the peaks.
