Download telegram ios for android

Pure instant messaging. Simple, fast, safe and synchronized on all your devices. One of the 10 best 10 applications of the world with over 500 million active users. Fast: Telegram is the fastest messaging app on the market, connecting people through a unique and distributed network of data centers all over the world. Synced: you can access your messages; you can access your messages from all your phones, tablets and computers simultaneously. The telegram app apps They are standalone, so you don't have to keep the phone connected. Start to type on a device and finish the message from another. Never lose your data. Unlimited: It is possible to send media and files, without limits to their type and size. The entire chat history will not require disk space on your device and will be firmly stored in the telegram cloud for as long as necessary. Secure: We made our mission to provide the best s Combined impairment with ease of use. All about Telegram, including chats, groups, supports, etc. Sized using a 256-bit symmetrical AES encryption combination, 2048 bit and Diffie-Hellman Key Exchange. 100% Free & Open: Telegram has a completely documented and free API for developers, open source apps and verifiable builds to demonstrate the app that downloads was built by the same source code that is published by the same source code. Powerful: you can create group chats with up to 200,000 members, share large videos, documents of any type (docx, mp3, zip, etc.) Up to 2 GB each, and even set the robots for specific activities. Telegram is the perfect tool for online community hosting and coordinating the. Release teamwork: built to deliver your messages using the smallest possible as the most as possible, Telegram is the most reliable messaging system ever carried out. It also works on the weaker movable connections. Fun: Telegram has powerful editing tools of photos and videos, animated stickers and emoji, completely customizable themes to change the appearance of your app, and an open adhesive / gif platform to satisfy all your expressive needs. Simple: while providing an embellished series of features, we take a lot of care to keep the interface clean. Telegram is so simple that you already know how to use it. Private: We take your privacy seriously and we will never provide third parties to access your data. You can delete any message you've ever sent or received for both sides, at any time and without track. Telegram will never use your data to show you announcements. For those interested in utmost privacy, Telegram offers secret chats. Secret chat messages can be automatically programmed to self-destruct on the participating devices. This way you can send all kinds of content to disappear. Messages, photos, videos and even files. Secret chats use end-to-end encryption to ensure that a message can only be read with the intended recipient. We continue to expand the boundaries of what you can do with a messaging app. Don't wait years for older messengers to retrieve the telegram. Join the revolution today. November 6, 2021 Version 8.2.1 Hyper-speed scrolling and View for shared media, merge requirements, global chat themes and sliding view and plus hyper-speed calendar for shared support - quickly scroll through shared support by dragging the new date bar. Pinch to enlarge and reduce for more or less photos in each row. View media shared as a calendar by tapping (A
