Download now to discover why millions of users already have installed the flight tracker FlightRadar24 Free. FlightRadar24 is, or has been the number one selling app in more than 100 countries. We are frequently featured in the media and recent media mentions include Bild \(Germany\), Le Monde \(France\), and CNN \(US\). FlightRadar24 Free features include: * Identify any aircraft flying overhead with Augmented Reality view * See planes moving in real-time * Search for a flight * Get flight number and callsign information for individual planes * See images for most aircraft Do you want more features? Buy FlightRadar24 and get: * Comprehensive information for each individual plane, including route, speed, altitude and more * Augmented reality view - identify the planes flying overhead by simply pointing your phone's camera to the sky * Easy to search for a specific flight * Filter by airline, altitude, speed and more * Emergency squawk sush notification alerts * Flight trails and callsigns directly on map * See airline logos in connection with the aircraft * Banner free COVERAGE We are constantly working to expand FlightRadar24's global coverage. Below is a breakdown of our coverage as of December 2014. For the most up-to-date coverage, please visit \[www.flightradar24.com\]\(#\) * EUROPE Close to 100% coverage * NORTH AMERICA 100% of US and Canada via slightly delayed radar data. Real-time coverage for most of US, Canada and Mexico for ADS-B equipped aircraft * Rest of the World We have coverage in parts of Russia, Australia, New Zealand, Argentina, Bolivia, Brazil, Chile, China, Colombia, Costa Rica, Ecuador, Greenland, Hong Kong, India, Indonesia, Japan, Kazakhstan, Malaysia, Maldives, Mauritius, Mexico, Middle East, Pakistan, Philippines, Singapore, South Africa, Taiwan, Thailand, UAE, Venezuela and many other countries Please note that coverage will vary. IMPORTANT INFORMATION Please note that FlightRadar24 only can track aircraft equipped with an ADS-B transponder. The exception is in the US and Canada where we get radar data from the FAA and can track almost all planes, but with a five-minute delay. Visit \[www.flightradar24.com\]\(#\) for more information about ADS-B and FlightRadar24's coverage. CONNECT WITH FLIGHTRADAR24 Like us on Facebook \[www.facebook.com/flightradar24\]\(#\) and follow us on Twitter \[www.twitter.com/flightradar24\]\(#\) for the latest on FlightRadar24. HELP & SUPPORT Please visit the FlightRadar24 forum for help and support. \[forum.flightradar24.com/threads/99-Important-Read-this-before-you-ask-questions\]\(#\) DISCLAIMER The use of the information presented in FlightRadar24 is strictly limited to your personal enthusiast activities \(i.e. for entertainment purposes\), which specifically exclude any activities that might endanger yourself or the lives of others. Would you find it fancy to be able to turn your Android devices into a mobile flight tracking data? Not sure if they were capable of such a task? Well, then you will certainly surprise to find this interesting mobile app from FlightRadar24 and what it has to offer to the users. With the applications, Android users can now explore the complete radar system of flights from every place and country in the world, all will be available on your portable and mobile devices.Find out how were they able to put so much live data and tracking information in such a simple app. And also take a peek at what the application is capable of doing with our following articles. Here, you'll learn exactly how flights from all over the world were properly checked on and keeping tracks of. And at the same time, feel free to become an employee at the ground stations as you enjoy watch flights from all over the world. Don't worry, it's all legal, and the interesting mobile app would certainly make a great educational experience.Find out more about this amazing app of FlightRadar24 Flight Tracker with our complete reviews.What does it do?For those of you who're interested, you can now enjoy the complete tracking experience with FlightRadar24 Flight Tracker, which will provide you with intuitive and exciting information regarding the flights that are currently active on the air. See flight information, their departures, their current paths, as well as zooming yourself into the locations for the exact details.And to do that, FlightRadar24 Flight Tracker offers its massive network of more than 20,000 ground stations from all over the world, which will collect information from the traveling plans and send those to the network. And from there, users can easily check on the currently active flights and explore a little bit about their operations.Also, with most planes now uses the ADS-B transponder to transport positional data, you can easily keep track of them using FlightRadar24 Flight Tracker. And even if they don't the system can still calculate the suspected locations of many planes. And don't worry, all information is legal and can be shared with people from all over the world. This interesting mobile app of FlightRadar24 Flight Tracker will only provide a more satisfying and convenient experience with its useful features. RequirementsTo use the app, all you need is a working Android device with a proper Internet connection, which will be needed for sending and receiving information from the server. Also, if you wish to enjoy more features from the app, you can always go for the silver or gold version to enjoy more functionality. But of course, those would cost you some extra money.Awesome featuresHere are all the amazing features that the app has to offer:Watch and spectate aircraft moving around the world in real-timeTo start with, Android users in FlightRadar24 Flight Tracker can have access to the most complete aircraft tracking services from FlightRadar24, which will allow you to see every commercial flights that are happening on the air. Feel free to open the app and see for yourself all the real-time movements of aircrafts from all countries across the world.And at the same time, you can easily check on the realistic data on each of these aircrafts just by selecting certain targets. This will introduce you to the flight's information and the photo of the exact aircrafts that are operating.Also, the app will provide the other flight details, including the estimated time of arrival, traveling routes, departure time, speed, altitude, aircraft types, and more. These complete information and data will make you feel like you're actually in a ground station.Moreover, for those of you who're interested, you can also check out the different airport icons on the maps to check for their own arrival and departure boards, current weather conditions, along with the aircraft on the ground.Explore the incredible 3D view from the cockpitWith an intuitive and accessible 3D view, from the cockpit, FlightRadar24 Flight Tracker allows Android users to see what the pilots actually see while flying on the skies. You can easily select whichever planes that you're interested in and start to enjoy your unique traveling experiences on high altitudes. Explore the unique views that you can't find anywhere else.Turn back time to watch past flightsFor those of you who're interested, it's also possible for Android users in FlightRadar24 Flight Tracker to explore the historical data and turn back time in the app to watch the past flights. The options will allow you to completely supervise the courses of the flights that had happened throughout the world, for days and days before, which can be quite interesting.Search and use the filter for certain flightsTo effectively lookup for the certain flights that you're thinking of, FlightRadar24 Flight Tracker will offer its complete search system, which you can use to look for certain flights using the provided flight numbers, airport, or airline. And at the same time, the useful filters with many interesting options will allow you to easily categorize flights into certain collections of airlines, aircrafts, altitudes, speeds, and more. This allows for simple and effective search options for all your targeted flights.Enjoy the silver app with more featuresAnd to make the app more useful, Android users in FlightRadar24 Flight Tracker are also allowed to go for the Silver app, which offers more than 90 days of flight history. Here, you'll find the aircrafts having more details, such as serial number and age. As for the flights, you can now see their vertical speed and squawk. The improved filters will also help in keeping track of the flights that you are interested in.Want more? Then the Gold version of the app will offer everything that you find interesting from the Silver app, while having all of them properly upgraded and enhanced. Thus, you'll be having 365 days of historical data, live and detailed maps with weather and cloud conditions. Also, flights at the ocean will now receive more detailed measures, with aeronautical charts and accurate tracks. The list goes on.Enjoy all the unlockable features with our free app!However, since all the Silver and Gold version of the app will cause you some money, it would be better to go for our modified version of the app, which offers completely unlocked content for absolutely free. All you need is to download the FlightRadar24 Flight Tracker Mod APK from our website, follow the provided instructions to have it successfully installed, and start to enjoy the in-app features whenever you want.Final verdictsWith accurate and useful information, FlightRadar24 Flight Tracker is undoubtedly a great mobile app to have on your mobile devices, if you're interested in keeping track of flights and airports. And with the fully unlocked app on your website, you'll find yourself having more reason to enjoy the app.](#)
