For anyone who likes their anime to have equal parts epic fight sequences and hilarious bits, there are plenty of options available. "One Punch Man" deconstructs superhero stories, while "The Devil Is a Part-Timer!" follows Satan as he comes to Earth hoping to conquer it but ends up getting a job at a fast food restaurant. Then again, if you're looking for something a little off the beaten path, then you may want to turn your attention to "Assassination Classroom." The anime ran for two seasons and follows an all-powerful entity that gives humanity a chance to defeat it, doing so by teaching a classroom of students how to fight and what techniques they could use to take it down. Not only is the premise a fresh take on a tired concept, but it also includes some of the best fight scenes you've ever seen in an anime, bar none. With only 47 episodes, it's a relatively quick binge-watch, at least when compared to something like "Monogatari," and luckily, there's a pretty easy way to watch all of it if you've been jonesing for a new anime to check out. You have a couple of options to check out "Assassination Classroom," depending on what streaming service you have access to. For most people, the easiest way will be to watch it on Hulu, which has both seasons available with both subtitled and dubbed options, allowing you to view it however you prefer enjoying anime. In the event you don't presently have a Hulu subscription, you can get one for as low as \$5.99/month with ads. For those who like having all of their anime in one place, you likely have a subscription to Funimation. A ton of different anime, including both seasons of "Assassination Classroom" are available on the service, which you can watch at your leisure for only \$5.99/month. You can also save a little bit of money by getting a full-year subscription to Funimation for \$59.99. There's just the little matter of finding a place where you can watch the "Assassination Classroom" live-action movie. It basically tells the same story as the anime but condensed into a span of two hours. For completists, a binge-watch may not feel finished without it. You may be able to find a Blu-ray online, but it's important to remember to check to see if the disc will be compatible in your country. Or you could head over to Amazon Prime, where the live-action film is available to rent in HD for just \$3.99. Sadly, you can't watch the follow-up — "Assassination Classroom: Graduation" — but keep your eyes peeled. You never know when it might become available online for people in the U.S. to see. A creature who blasted the moon into a crescent shows up at Kunugigaoka Junior High School—and he's giving the students a year to assassinate him!The reasoning behind the E Class's segregation is revealed. While the plot of the series is incredibly complex, with hundreds of puns and nuances, the watch order is anything but. Thankfully, you only need to watch the first and second seasons to satiate your hunger, but here, we also have all the extra installments arranged in order. So what are you waiting for? Get ready to be dragged into one of the best anime watches of your life! The recommended way to watch Assassination classroom in order is by following the custom order: Assassination Classroom Season 1 (2015) Assassination Classroom Season 2 (2016) Assassination Classroom: Jump Festa Special (2013) Assassination Classroom: Meeting Time Special (2014) Assassination Classroom: Extracurricular Lesson (2016) Assassination Classroom The Movie: 365 Days' Time (2016) Koro Sensei Quest! (2016-17) The best way to watch Assassination Classroom is to complete its first and second seasons. The movie is a recap that can be skipped, and the OVAs are non-canon. It also has special episodes, but all of them can be watched after completing the anime. Assassination Classroom's chronological order is good but not ideal because you wouldn't get a proper introduction to the important characters. The chronological order begins with the 'Meeting Time' special episode, which shows the first meeting between Koro-sensei and Karasuma sensei. Some of the top VPN service providers in the game are ExpressVPN, Nord VPN, Proton VPN, Cyberghost, and Private Internet Access, to name a few. All you have to do is connect to a country where your preferred anime is streaming, and voila, you can now watch Assassination Classroom even if it is unavailable in your region. Express VPN | Source: Google Play There are many unpaid VPN services at hand or free browser extensions. However, using low-tier VPN providers might decrease your speed and get you blocked by streaming services. Connection drops and unsecured encryption are also other disadvantages. The important thing is that Assassination Classroom is present on Crunchyroll, Hulu, and Funimation's catalogs, so set your VPN to a suitable location to access the anime from anywhere. It will take a total of 22.9 hours or almost a full day to complete Assassination Classroom in one sitting with no breaks. A wiser option would be to watch it over the course of three to four days with appropriate gaps in between.
