

I'm not a bot

I don't have a definitive answer to this question. But I want to point out a couple of things that surprised me when I looked into possible differences between "free of" and "free from." First, I ran an Ngram Viewer search across the years 1800 to 2007, of four phrases: "are free of," "are free from," "is free of," and "is free from." Since these are all fairly common phrases today, I wanted to see whether they had always been so, and whether any change in the relative frequency of "is/are free of" and "is/are free from" had occurred. As the following Ngram graph shows, there has been a significant rise in frequency of the two "free of" phrases (blue and green lines) over the past 100 years, and that increase seems to have come largely at the expense of the two "free from" phrases (red and yellow lines). Second (and even more surprising to me), I found more instances in the search results of sentences where "free of" sounded right to me and "free from" would have sounded wrong, than instances where "free from" sounded right and "free of" would have sounded wrong. First and most obviously, consider the phrase "free of charge." While here, Mr. Riddle ascertained that the transfer agencies of other western banks were conducted in some instances free of charge. The phrase "free of charge" (blue line) has always been vastly more common than "free from charge" (red line), as this Ngram graph shows. Other instances where "free of" sounds distinctly better to my ear than "free from" include these: It is free of the barren, sandy tracts, and great swamps, so common in the states of the south, and enjoys a richer soil and better climate than those of the north. This date will be as soon as Lake Erie is free of ice. Neither of these positions is free of serious objections. When it is free of admixture with quartz and feldspar, it forms an excellent flux for iron ores. For six inches in depth of the surface of the mounds, the soil is free of stones. The strongest instance of "free from" I found was this: They were indeed free from tyranny; but they wanted also that elegance which compensates for a thousand of the evils that luxury produces. All of the preceding examples are from the nineteenth century, when "free of" was far less common than "free from" overall. In each case, the phrase "free of" means "clear of," "untainted by," or simply "without." In contrast, "free from" suggests "liberated from" or "no longer oppressed by." The example listed above that seems to me to be least consistent with this framework is "free of ice," which usually appears in the context of geographical locations where ice is sometimes present but is absent at the time being discussed. Here, I suppose, a writer could make an argument either way: that the phrase means simply "clear of" and therefore should be "free of"; or that the phrase means "no longer fettered by" and therefore should be "free from." Both forms are still found today, though Ngram (with a smoothing factor of 3) shows "free of ice" (blue line) surpassing "free from ice" (red line) in frequency from the late 1940s onward: Applying these subtle (and perhaps idiosyncratic) distinctions to the three examples in the poster's question, I would get, first, The people were free from the barbaric dictator, if (as the sentence implies) the dictator had once ruled them but now no longer did. I would prefer The mashed potatoes were free from lumps, if the mashed potatoes were originally lumpy but had subsequently had their lumps removed; but I would choose The mashed potatoes were free of lumps, if the mashed potatoes had come straight from the food processor lump-free, say, or if they were made from instant mashed-potato powder. And finally I would choose I wish I could be free from this terrible cold, because the writer is expressing a desire to escape from the cold's dominion over his body. Here, however, I like John M. Landsberg's alternative (using "rid of") better still. (And loquid aside, the wording "free of this terrible cold" seems to me to be not at all outlandish.) As I said, I'm not entirely sold on this analysis, because I think most people either use "free of" and "free from" interchangeably—except in the case of "free of charge"—or arbitrarily prefer one or the other form to express the same idea, without having any finer distinctions in mind. If so, my analysis amounts to a rule in search of actual usage—a prescription rather than a description. In any event, the impressive rise of "free of" against "free from" over the past 100 years suggests that the English-speaking world has become more receptive to using "free of" in place of "free from" during that period. Closed. This question is opinion-based. It is not currently accepting answers. Want to improve this question? Because this question may lead to opinionated discussion, debate, and answers, it has been closed. You may edit the question if you feel you can improve it so that it requires answers that include facts and citations or a detailed explanation of the proposed solution. If edited, the question will be reviewed and might be reopened. I want to make an official call and ask the other person whether he is free or not at that particular time. I think asking, "Are you free now?" does't sound formal. So, are there any alternatives to it? Bryan Garner, Garner's Modern American Usage, second edition (2003) has a typically (for him) sensible view of the subject: free; for free. Because free by itself can function as an adverb in the sense "at no cost," some critics reject the phrase for free. A phrase such as for nothing, at no cost, or a similar substitute will often work better. Yet while it's true that for free is a casualism and a severely overworked ad cliché, the expression is far too common to be called an error. Sometimes the syntax all but demands it—e.g., "Soft-dollar arrangements ... include various services like research and information that big institutional clients receive for free from brokers." Anita Raghavan, "Pension Fund Plans to Scrap Certain Deals," Wall Street Journal], 26 Jan. 1995, at A5. That same writer, however, omitted the for when it wasn't needed: "That research is sent free to the client." Lid. "For free" as a way of saying "at no cost" has been circulating in speech and in the popular press for more than half a century. I first took conscious note of it in 1970, when Joni Mitchell included a song titled "For Free" on her album of that year, Ladies of the Canyon. One instance from the song: I was standing on a noisy corner/Waiting for the walking green/Across the street he stood/And he played real good/On his clarinet for free It seems not at all inconsistent to include "for free" in a song that elsewhere uses such homely phrasing as "playing real good." Mitchell was born in Alberta and grew up in Saskatchewan, but she had been living in the U.S. for three years (and California for two) by 1970, so I have no idea where she picked up the expression "for free." To gauge the use of "for free" in copiedited publications, I ran Google Books search results for word strings in which "for free" would be likely to appear only as an end phrase in a sentence or independent clause. Here is the resulting Ngram chart, for the years 1900–2005, for the strings "for free the" (blue line) "for free a" (red line), "for free can" (green line), "for free could" (yellow line), "for free would" (real line), and "for free do" (purple line): False positives in the line graphs give the erroneous impression that attested instances in the Google Books database go to the first decade of the twentieth century (if not farther). In fact, the earliest confirmed instance of "for free" in the sense of "at no cost" that I could find was this one from Starr De Belle, "Ballyhoos Bros.' Circulating Expo," in The Billboard magazine (1947): Thinking that he was an old wanderer from his gray beard, they dined him and as Lem didn't tip his duke they gave him a buck and two years subscription for the Hog Cholera Monthly for free. Before our hero could locate a hotel he was surrounded by a group of natives, who greeted him royally, offering him free room and board (pitch-'til-you-win style). Suddenly a group of local business men kidnaped him from the crowd and rushed him to the best hotel in town where he was given for free a suite of rooms. After being wineed and dined Lem was rushed to the bury's best club where he learned what it was all about. Presumably, since Starr De Belle presents this item as being an epistolary effort by one "Major Privilege" of Goat's Whiskers, Kentucky, the use of "for free" reflects the author's notions of colorful but standard hick U.S. English from what would later become known as "flyover country." In any event, the next two Google Books matches for "for free" in the relevant sense are from 1960. From a company's anti-unionizing message cited in Decisions and Orders of the National Labor Relations Board, volume 126 (1960): It has been tough enough trying to provide steady work without having to deal with a bunch of outside organizers like operate most unions. YOU can vote NO and save your money because you know that you can tell management about the things you want and they will do their best to give these things free. ... If times get a little better in the future additional benefits will be added—again for free. ... Note that, as in Garner's example from the Wall Street Journal, the author of this message chose not to use "for free" at another point in the same piece. And from Kansas Government Journal (1960): In these days of high overhead of running a private business a "free" engineering service probably would be worth just about that much to the city. The old saying, "Nothing comes for free" could never be so readily applied. In recent decades, however, use of "for free" to mean "at no cost" has skyrocketed. Search results for the period 2001–2008 alone yield hundreds of matches in all sorts of edited publications, including books from university presses. There is no denying that, seventy years ago, "for free" was not in widespread use in edited publications—and that it conveyed an informal and perhaps even unsavory tone. Such pasts are not irrelevant when you are trying to pitch your language at a certain level—and in some parts of the English-speaking world, "for free" may still strike many listeners or readers as outlandish. But in the United States the days when using "for free" marked you as a probable resident of Goat's Whiskers, Kentucky, are long gone. Update (March 8, 2023): Earlier instances of 'for free' in U.S. publications Although the earliest match for "for free" in my original answer was from the August 16, 1947 issue of The Billboard magazine, I have subsequently run more-extensive searches in Google Books and Hathl Trust and turned up multiple matches from as early as February 1943. Here is a rundown of the matches I found from 1943 and 1944. From "Supplee Gets Milked," in The Billboard (February 6, 1943): Only as recently as New Year's Eve, it is said, the band booked itself to play for the annual party of the Northeast Shrine Club, an engagement that always went to local musicians. What burned up the union is that the club charged \$10 per couple for the affair, and the coast guard supplied the music for free. From "The Adcomber Looks at Hygeia Ads" in Hygeia (April 1943): Milk for calcium plus molasses for iron equals Brer Rabbit Milk Shake—which is another name of Youngsters' Delight! Then, too, there's good news and good nourishment in Brer Rabbit molasses cookies. . . . Yours FOR FREE—116 recipes, offered, page 288. From "An Open Letter to Congress" (an advertisement for Billy Rose's Diamond Horseshoe club in New York City), reproduced in Life magazine (July 26, 1943): Now that you've gone in for double talk, standing on your heads and making funny noises, high-diving into the pork barrel, and saving the Statue of Liberty in half, we must, as rival showmen, protest. We can't stand off the three-ring circus being given for free on Capitol Hill. You boys are taking the cavalier right out of our mouths. From a statement by Bert Lytell, president of Actors Equity Association, New York City, in House Ways and Means Committee, "Revenue Revision of 1943" (October 16, 1943): I am on the board of the U. S. O. camp shows and, without giving any exact figures, we have entered every zone of operations [in World War II], men and women actors, entertainers well up into the hundreds. We send them by bomber to Alaska, Hawaii, Australia; we have had them in Salamaua, Guadalcanal, and the Caribbean; and our biggest group is at the moment in London, going to the European theater of operations. Every hick show has pledged its services to the U. S. O. camp shows, to go as far away as a night's journey in any direction. Especially are we anxious to go to the ports of embarkation, where those boys go in and do not come out until they get on the transport. They are given the best that the theater has to offer, and they get it "for free." From "Tow Target" in The Rip Chord (December 25, 1943): Sgt. Ben (Spendthrift) Eisenberg is find[ing] things tough on furlough in Tacoma. They don't throw in meals for free at the YMCA. Rumors have it that Benny was seen mooching at the Mess Hall. From Georgia Craig, Substitute Angel (1944): "I've got another job." "For free, again?" "No, this time I'm going to be paid—but good! With room and board included," answered Arden, and described the new job. From "Treasury Defines 'Cabaret,' Juice Spots Escape; Acts Hit," in The Billboard (February 19, 1944): "A performance shall be regarded as being furnished for profit for the purpose of this section even tho the charge of admission, refreshments or merchandise is not increased by reason of furnishing of such performance." This points out clearly that operators cannot disqualify themselves from the tax bite by claiming they are throwing in the show for free, and that the patron doesn't have to be taxed for it. From "Labor Highlights," in American Federationist (July 1944): An advertising agency in Cambridge, Mass., throwing caution to the winds, comes right out and invites businessmen to send for a pamphlet which explains in detail how much money a company can spend for advertising without increasing its tax bill. Employers' advertising is today being subsidized by the taxpayers, quite a few of whom are, of course, working people. In some of this advertising, propaganda is made for "free enterprise" as narrowly and unacceptably defined by the National Association of Manufacturers. Fairly frequently these subsidized advertisements blast labor. It would be bad enough if industry were spending its own money to try to put spurious ideas in the public mind, but when industry is permitted to do it "for free," someone in a high place ought to stand up and holler. Interestingly, an otherwise verbatim reprint of this item in The Catering Industry Employees a month later (August 12, 1944) changes the key wording from "but when industry is permitted to do it 'for free'..." to "but when industry is permitted to do it for 'free enterprise'...", which of course completely changes the sense of the sentence and the point that the original author was trying to make. From "Remotes for \$\$ Coming Up as Free Lines Nixed," in The Billboard (August 19, 1944): Time was when radio stations fought for the rights of broadcasting quarter to half-hour late-evening slots of bands from niteries, ballrooms and hotels. ... But that may be changed in time. Stations are short of help and their time is pretty filled up anyway. They are reluctant to put on an show for free, let alone a band. The time may come when all operators, maybe even bands, will have to pay their own freight. From "D. C.'s Latest Gimnick, Inc., Is Pepper Bill on Broadcasting," in The Billboard (August 26, 1944): As the Pepper Bill is set up, it contains a proviso that permits the cutting of e. t.'s. If the bill goes thru, it is said, permission might be granted to have [elected official's] Slavonic prijati "to help," prijateljli "friend," Welsh rhydd "free"). Meaning "clear of obstruction" is from mid-13c.; sense of "unrestrained in movement" is from c. 1300; of animals, "loose, at liberty, wild," late 14c. Meaning "liberal, not parsimonious" is from c. 1300. Sense of "characterized by liberty of action or expression" is from 1630s; of art, etc., "not holding strictly to rule or form," from 1813. Of nations, "not subject to foreign rule, or to despotism," recorded in English from late 14c. (Free world "non-communist nations" attested from 1950 on notion of "based on principles of civil liberty.") Sense of "given without cost" is 1580s, from notion of "free of cost." They are seems to be similar in meaning, however in a specific context Googling vote for the first. ... teaching users for free. I think free of charge(s) is more appropriate choice but I couldn't find convincing support for the idea. Are those really equivalent and what is the best for the context? Is there another alternative? 2 The idiom is less than 100 years old. The first recorded uses date back to the 1930's. There's more detail in the Wiki article The original reads There ain't no such thing as a free lunch. There are variations, including There's no free lunch in physics. The general meaning is that everything is a trade-off; you can't get anything for nothing; getting something for nothing is a fool's (impossible) dream. This applies to economics, physics, relationships - everything. A close cousin expression goes If something seems too good to be true, it probably is. Do not be discouraged. From en.wiktionary, freebie means "(informal) Something which is free; a giveaway or handout". Thus, the item given you is a freebie; it was given to you gratis or on the house, as mentioned in previous answers, or free of charge. If you had purchased something, and another item were thrown in for free, the term lagiappe could be used. From en.wiktionary, lagiappe means "An extra or unexpected gift or benefit, such as that given to a customer when they purchase something else". Both are correct, but swag is the earlier word, and one's own will, also "noble, joyful," from Proto-Germanic *frija- "beloved; not in bondage" (source also of Old Frisian fri, Old Saxon vri, Old High German vri, German frei, Dutch vrij, Gothic freis "free"), from PIE *priya- "dear, beloved," from root *pri- "to love" (source also of Sanskrit priyah "own, dear, beloved," priyate "loves," Old Church Slavonic prijati "to help," prijateljli "friend," Welsh rhydd "free"). They are seems to be similar in meaning, however in a specific context Googling vote for the first. ... teaching users for free. I think free of charge(s) is more appropriate choice but I couldn't find convincing support for the idea. Are those really equivalent and what is the best for the context? Is there another alternative? 2 The idiom is less than 100 years old. The first recorded uses date back to the 1930's. There's more detail in the Wiki article The original reads There ain't no such thing as a free lunch. There are variations, including There's no free lunch in physics. The general meaning is that everything is a trade-off; you can't get anything for nothing; getting something for nothing is a fool's (impossible) dream. This applies to economics, physics, relationships - everything. A close cousin expression goes If something seems too good to be true, it probably is. Do not be discouraged. From en.wiktionary, freebie means "(informal) Something which is free; a giveaway or handout". Thus, the item given you is a freebie; it was given to you gratis or on the house, as mentioned in previous answers, or free of charge. If you had purchased something, and another item were thrown in for free, the term lagiappe could be used. From en.wiktionary, lagiappe means "An extra or unexpected gift or benefit, such as that given to a customer when they purchase something else". Both are correct, but swag is the earlier word, and one's own will, also "noble, joyful," from Proto-Germanic *frija- "beloved; not in bondage" (source also of Old Frisian fri, Old Saxon vri, Old High German vri, German frei, Dutch vrij, Gothic freis "free"), from PIE *priya- "dear, beloved," from root *pri- "to love" (source also of Sanskrit priyah "own, dear, beloved," priyate "loves," Old Church Slavonic prijati "to help," prijateljli "friend," Welsh rhydd "free"). Meaning "clear of obstruction" is from mid-13c.; sense of "unrestrained in movement" is from c. 1300; of animals, "loose, at liberty, wild," late 14c. Meaning "liberal, not parsimonious" is from c. 1300. Sense of "characterized by liberty of action or expression" is from 1630s; of art, etc., "not holding strictly to rule or form," from 1813. Of nations, "not subject to foreign rule, or to despotism," recorded in English from late 14c. (Free world "non-communist nations" attested from 1950 on notion of "based on principles of civil liberty.") Sense of "given without cost" is 1580s, from notion of "free of cost." They are seems to be similar in meaning, however in a specific context Googling vote for the first. ... teaching users for free.
