Camisa do barcelona 2024/2025

To celebrate the Club's 125 years of history, the FC Barcelona jersey's design for the 2024/25 season is inspired by the Club's legacy, history and beginnings. Using the colours blue and maroon, present as a main element in the badge, a distinct, unique and symbolic design has been created that evokes the team's identity throughout its history. To honour the Club's origins, the proposal has looked towards the first team kit from the year 1899; a shirt in two colours with a design that brings an elegant and classic contrast to proceedings. The jersey will bear the Spotify logo on the front, together with that of Nike, as well as the Ambilight TV brand on the sleeve of the men's first team kit, with the brand Bimbo on the sleeve of the women's kit. Furthermore, the UNHCR/ACNUR logo will be maintained underneath the shirt number. During the first phase of the launch in stores, the new Barça jerseys (Stadium and Match) will carry the same Spotify logo featured on the kits last season. The FC Barcelona jerseys with the refreshed version, which will be worn by Barça players on pitch during the 24/25 season, will be available for fans to purchase from autumn this year. Presentation video with Club sportspeople and legendary players Continuing with the theme of the 125th anniversary, the Club is promoting the launch of this first jersey with an audiovisual campaign that strengthens two fundamental ideas that define Barça: the style of play and being Catalan. To give the story coherence, the video is inspired by the concept of 'We want the ball' and sees several legendary players take part (Ronaldinho, Iniesta, Puyol, Gasol and Stoichkov) as well current players (Cubarsi, Lewandowski, Araujo, Pedri, Fermin, Gavi, Balde, Lamine and Raphinha; Vicky, Alexia, Aitana, Mapi, Engen and Rolfo). Ronaldinho opens events and he is the first to pass a ball that symbolises Barça's own style and footballing DNA. The ball comes to the current players as they look back on emblematic footballing moments from the Club's recent history with scenes that also invoke what it is to be Catalan. Lewandowski, Araujo and Cubarsi share some tomato bread; Pedri and Fermin paint some pictures that connect with the presence of the cartoonist Pilarín Bayés talking about Barça's style of play, whilst Stoichkov and Pau Gasol talk about their legacy and share their experiences with Gavi and Balde via a video call. For their part, the women players come together by making a human tower along with the Colla Castellers from Poble Sec. During the piece a lot of details of the jersey for 2024/25 can be made out and it all comes together with a cry of "Visca Barça!" from none other than Carles Puyol. Technical innovation in the shirt material The kits for the FC Barcelona men's and women's teams for 2024/25 are made with Dri-FIT ADV, Nike's highest quality for technical pieces. Thanks to the work done by the Nike Sport Research Lab (NSRL) and the data collected with advanced body mapping technology, the kits for this season bring agility, breathability and ventilation exactly where they are needed. The technical innovations introduced establish new standards with it come to high performance. Each element of the kit has been improved using methods involving computer design based on 4D data. The Nike design team have updated the colour direction using a focus named 'metaprismatic'. As such, the new clothing takes the traditional colours and adds to the team via light and movement to bring forward the colour palette in a unique fashion, whilst at the same time maintaining the Club's aesthetic identity. The men's, women's and children's kits can be purchased from 18 July via the BARÇA STORES, the Club's official e-commerce platform as well as at Nike Stores and Nike.com. 436 A Nike enfim revelou a nova camisa reserva do FC Barcelona 2024-2025, temporada em que a equipe busca os títulos da LALIGA, Copa do Rei da Espanha e Champions League. O novo uniforme "away" se une ao "home kit", já lançado antes do início da temporada. A demora na oficialização do manto tem a ver com a troca do logo da Spotify nas camisas, que agora passa a ter apenas o símbolo, com maior destaque.
